LUXURIOUS TRADITION

PRECIOSA

...where the stylish, innovative design is born out of the craftsmanship of whole generations of glassmakers...

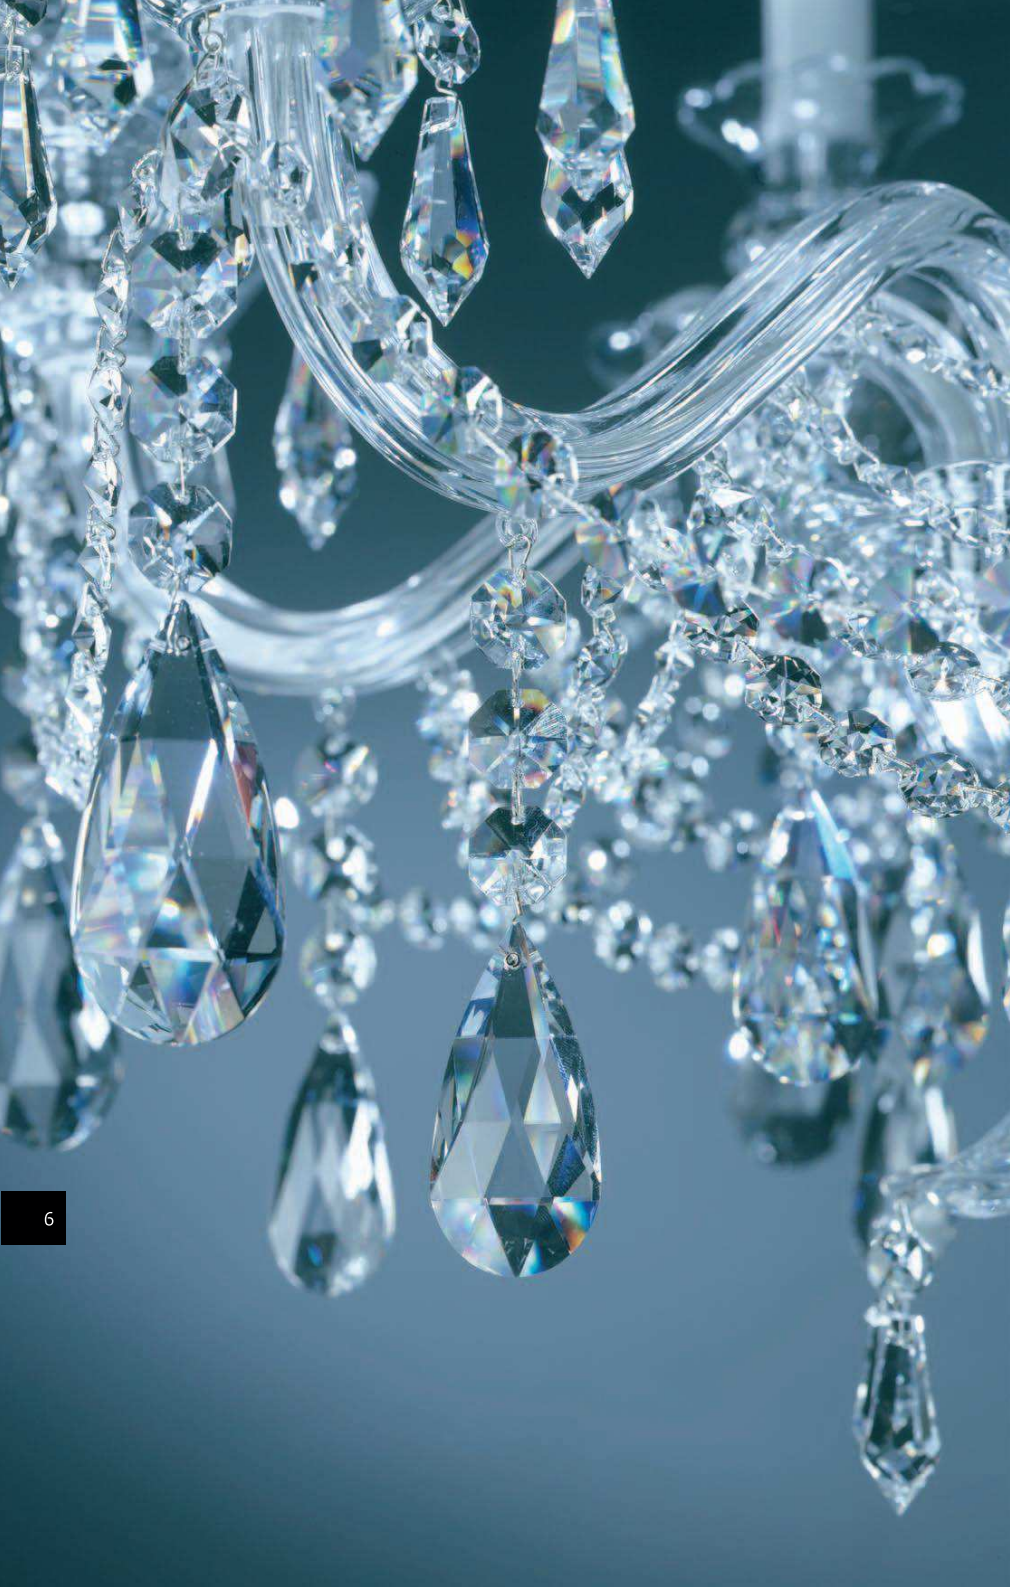
The magic of our production lies in the fascinating combination of glass and light, enabling us to create unique lighting objects – both contemporary and classical lighting fixtures, glass sculptures (fountains, walls, ceiling decorations and others) and decorative objects.

These products combine two invaluable elements we have always regarded highly: the experience of the glassmaking craft that our glassmakers have handed down from generation to generation for three centuries and the-state-of-the-art technological processes reflecting the current progress in science and technology.

The company's activity is mostly concentrated on both the realization of lighting projects and the production of residential lighting fixtures. We stand ready to implement project solutions according to our customers' personal wishes and requirements from design, through technical drawing, production, installation to the follow-up maintenance. We work constantly to vary the portfolio of lighting fixtures in the widest range of design styles, types and sizes.

LUXURIOUS TRADITION by Preciosa

The **tradition of production, luxurious appearance and classical morphology** are the common denominator of all the chandeliers in this catalog. To manufacture these, almost **90 percent is hand-completed:** mouth-blowing, cutting and other techniques applied when working glass and metals. Machine-cut **crystal chandelier trimmings** and artistically chased metal parts provide a stamp of luxury. Devotees of these lighting fixtures come mostly from the circles of the lovers of magnificent designs created in the style of the **timeless classic**.



Bohemian Classic

Bohemian Classic

Under the name "Bohemian chandeliers", it is impossible to imagine nothing more characteristic than glass machine-cut chandeliers. Their all-glass appearance, with added non-glass materials, makes them ideal representatives of the traditional Bohemian classic. The glass beauty is then enhanced by mouth-blown, cut components or hand-cut chandelier trimmings used. It is just these elements that rank these fixtures among "jewels" illuminating luxurious interiors.

Maria Theresa

Maria Theresa

At their start, the chandeliers bearing the name of Maria Theresa were made on the occasion of the Empress's coronation as queen of Bohemia in 1743. This fact is hidden in the shape of these lighting fixtures reminiscent of the royal crown. Their characteristic feature is the arms' typical flat surface clad with glass bars. The bars are fixed to the arms by glass rosettes and beads, with dangling cut crystal chandelier trimmings.

Royal Heritage

Royal Heritage

The prominent feature of these cast lighting fixtures is the metal parts used. It is not for nothing that creating these fixtures is called, among chandelier makers, "a royal discipline". It is the girdlers' craft that makes them so demanding, requiring especially significant skill, patience and effort. Thanks to the girdlers' craftsmanship, their hands can create luxurious chandeliers characterized by classical morphology. They are suitable especially for stylish representative interiors.

Due to hand-made production dimensions and weight might slightly vary.

THE EXAMPLE OF NUMBERING

AC 5493 / 00 / 006

- AC — SORT
- 5493 — TYPE NUMBER
- 00 — VARIANT
- 006 — NUMBER OF LIGHT SOURCE

SORT

- **A** Arm Type Chandeliers
- **W** Wall Brackets
- **T** Table Lamps
- **C** Ceiling Chandeliers
- **B** Basket Type Chandeliers
- **P** Pendant Type Chandeliers
- **F** Floor Lamps

CATEGORY

- **S** Crystal Symphony
- **C** Bohemian Classic
- **E** Enamel Romance
- **M** Maria Theresa
- **L** Light Elegance
- **R** Royal Heritage
- **B** Brilliant
- **D** Contemporary Lighting
